

REMARKS

Claims 7-37 are pending. Applicants incorporate by reference the Remarks in the Amendment filed on January 27, 2011. As pointed out in the Remarks of the Amendment, the descriptive support for the amendments to claims 7 and 17 can be found in the specification at least in page 5, lines 6-15, and claim 25 has been amended editorially without any narrowing of the scope of the claim. Applicants urge that the rejections be withdrawn in view of the reasoning presented in the Remarks of the Amendment and the Second Declaration submitted with the Amendment.

In the event that the filing of this paper is deemed not timely, applicants petition for an appropriate extension of time. The Commissioner is authorized to debit Deposit Account No. 11-0600 the petition fee and any other fees that may be required in relation to this paper.

Respectfully submitted,
